

CYC Members

The Board had their 1st meeting of 2013 and are off to a fresh and exciting start for the year. Dock chairman Jeff Averbeck is working on the next phase of the rooster dock. When he has pricing and planning ready to present, the board will review recommendations and see what aspects may be implemented in the near future for the expansion of the rooster dock. ([Proposed Layout Attached](#))

On pier 68 we are currently in the process of rewiring the electrical connections for boathouses. The overhead feeds shall be removed and new feeds will be run under the dock. Vinnie will coordinate with boathouse owners during this process. Periods of power loss will be kept to minimum and no boathouse will be left without power for more than a few hours at a time.

Our current membership stands at 136 which leaves us 14 vacancies. If you know any one that would be interested in membership please contact membership chairman Pryor Bacon. Currently the club has rental slips (80' & 60') available and ready for new members or anyone needing space to accommodate boats of that size. If you are interested in a rental slip or know of someone that may be interested check with Vinnie.

Our first social event of the year was a pot luck dinner and had almost 90 in attendance. Great food and great Party, Thank You Lee & Caye for serving as party Captains for that event. Our 2nd event, just a few days ago, with about the same in attendance and also a great event was the Super Bowl Party thank you John and Suzanne Deacon. By the way for Board vs. Bridge, the Board won, was not even close!

During our first meeting we held discussion regarding the possibly changing the Board & Bridge into one entity. CYC is the only club that is made up of Board & Bridge all other clubs are structured with only a bridge. A committee will be formed to review and present recommendations at later date.

Thank You

President
Tom Klimesch
